

Automatic Transmission Fluid (ATF)

Adaptive

DEX III H

Product Description

Goodyear Adaptive DEX III H is an automatic transmission fluid designed to provide superior performance in a wide variety of regular and commercial duty automatic transmissions, including recent General Motors and Ford electronics. It also exhibits outstanding operating characteristics as high performance, anti-wear hydraulic fluid for mobile hydraulic systems

Benefits

Goodyear Adaptive DEX III H provides the following benefits :

- Friction modifier provides smooth shifting & trouble-free operations
- Enhanced friction durability prolongs the life of transmission life
- Compatible with all types of rubbers, elastomers and metals and provides protection against wear and leakage
- Provides increased Clutch band and Clutch pack capacity
- Excellent thermal stability enables cleaner transmissions
- Excellent low temperature fluidity

Typical Characteristics

Adaptive	DEX III H	PERFORMANCE LEVEL- MEETS
Specific Gravity @ 15°C	0.8525	Holden HN 2126
Flash Point, °C	184	Ford Mercon IV
Pour Point, °C	<-40	Allison C4
Viscosity at 40°C, cSt	37.5	FORD M2C - 138CJ
Viscosity at 100°C,cSt	7.65	General Motors Type A Suffix A
Viscosity Index	181	Mazda M III Fluid

Typical physical characteristics of Adaptive DEX III H are given in the table. These are intended as a guide to the industry and are not necessarily manufacturing or marketing specifications.

Health & Safety

Detailed health and safety information for this product is provided in a Material Safety Data Sheet which is available upon request from your Goodyear lubricants sales office, or via the Internet on www.goodyearlubricants.me
